PROFESSIONAL SUMMARY

Full-Stack Developer and product builder with **4+ years** of experience shipping production web and mobile applications. Specializes in scalable products with **Next.js, TypeScript, React, React Native, Node.js, and MongoDB**. Currently building **DeeepSolve** (AI exam prep — 50,000+ students, 85% pass rate) and **TrackQR** (SaaS QR analytics platform). Passionate about turning real problems into well-crafted, performant products. Open to remote full-stack roles, freelance, and collaborations.

TECHNICAL SKILLS

Frontend: React, Next.js (App Router), React Native, TypeScript, Redux, Tailwind CSS, shadcn/ui, React Query, HTML5, CSS3

Backend: Node.js, Express.js, Bun, REST APIs, Supabase, MongoDB, PostgreSQL

Tools & Practices: Docker, Vercel, Fly.io, Cloudflare R2, Git, Claude Code, Lemon Squeezy, AI/LLM integration, responsive design, code reviews, OOP

PROFESSIONAL EXPERIENCE

Frontend Developer

Dec 2023 – Present

Incented · Full-time

Remote · United States

- Lead frontend development on *Permissionless Incentivization and Coordination* — building intuitive UIs for the proposition, prioritization, execution, and validation phases of distributed task workflows.
- Translate high-fidelity Figma mockups into pixel-perfect, fully responsive UIs in close collaboration with design and backend teams.
- Own end-to-end feature delivery: component design, implementation, testing, and code review.
- Stack: **Next.js 14, TypeScript, Tailwind CSS, Redux, Supabase.**

Frontend Developer

Aug 2022 – Nov 2023

STOVE · Contract

Remote · California, USA

- Shipped features for a **Food Delivery App** (Next.js, React, Tailwind CSS, TypeScript) — built reusable responsive components and contributed to code reviews to maintain code quality.
- Co-designed and developed an **Employee Dashboard** using React, Tailwind CSS, and Redux Toolkit, focused on intuitive UX and scalable state management.

Frontend Web Developer

Jan 2020 – Aug 2022

Freelancer.com · Full-time

Enugu, Nigeria

- Delivered 10+ web projects for international clients across e-commerce, education and SaaS, working independently from spec to deployment.
- Built reusable React component libraries and integrated REST APIs, improving delivery speed on repeat engagements.

FEATURED PROJECTS

TrackQR — SaaS QR Code & Analytics Platform

www.track-qr.com

- Full-stack SaaS for creating, customizing and tracking 15+ types of QR codes (Website, vCard, Menu, PDF, WiFi, Social Media...).
- Dynamic QR codes editable without re-printing; real-time scan analytics covering location, device, OS and engagement.
- Stack: **Next.js (App Router), TypeScript, Tailwind + shadcn/ui, Bun, Docker, MongoDB, Cloudflare R2, Lemon Squeezy, Fly.io.**

DeeepSolve — AI-Powered Exam Preparation Platform

www.deeepsolve.com

- AI exam prep platform for Nigerian students (JAMB, WASSCE, NECO) — **50,000+ users** with a self-reported **85% pass rate**.
- Built a CBT simulator that mirrors the real JAMB exam, plus **Scan & Solve** — snap a question and get an instant AI-generated solution and explanation.
- Stack: **Next.js, TypeScript, React, Node.js, MongoDB, Supabase, Tailwind CSS, LLM integration.**

EDUCATION

Higher National Diploma, Electrical/Electronics & Communications Engineering

Sep 2010 – Oct 2015

Institute of Management & Technology (IMT) · Grade: Distinction

CERTIFICATIONS

Udemy — *React (Complete Guide), TypeScript, MERN Stack, Modern JavaScript, Responsive Web Design (HTML/CSS)* · Google Developer Groups Cairo — *Web Development* · freeCodeCamp — *Responsive Web Design*.
